

AI-Powered Knowledge Management for Modern Teams

## The Problem

- Documentation scattered across multiple tools
- Can't find docs without remembering exact keywords
- New hires ask the same questions repeatedly
- Docs go stale — no way to know what needs updating

## The Solution

PrimeStride Atlas uses AI to make your team's knowledge instantly searchable, always current, and continuously improving.

## Key Features

 AI Chat	Ask questions, get answers with source citations
 Semantic Search	Find by meaning — 'vacation policy' finds 'PTO guidelines'
 Knowledge Graph	Visual map of how your docs connect
 Auto-Summaries	AI-generated TL;DR for every document
 Smart Tagging	AI suggests tags based on content
 Feedback Loop	Track which docs help, which need work
 Team Groups	Organize docs by team with access control (Pro+)
